Subject Grid Locations

Geoff,

Attached is the waypoint file we dumped to the GPS units for navigating to the sample locations. Please note that the datum is '83, not '27. The file is only for the on-site soil locations. The four sediment/soil locations we sampled off-site are not in the waypoint file. These locations, approximated and picked off the Arcview screen, are:

#1	249060.46
	3726854.79
#2	248931.75
	3726903.59
#3	249051.82
	3726838.74
#4	248916.33
	3726886.90
